### **Shady Dale railroad crossing work schedule change**

**WHAT:** Railroad crossing concrete panel installation at two nearby Shady Dale locations requires traffic detours.

**WHEN:** Weather permitting, the panel work will be ongoing Monday, August 8 through Wednesday, August 10 and also Monday, August 15 through Thursday, August 18.

**WHERE:** Shady Dale railroad crossings on state Route (SR) 142 at mile post 3.52 (double crossing) and 4.41 (single crossing); The official detour utilizes SR 83, SR 11 and SR 16.  
Local traffic will still have access.

**WHY:** Railroad companies routinely upgrade their crossings which provides a more stable and safer surface for crossing vehicles. Georgia DOT coordinates with the railroad entities to setup the detour and approve the work on our state route system
